# Training

- RxNT requires all users to complete product training prior to activation
- Virtual webinars
- Train the Trainer
- On-site training available upon request

# RxNT Support

- Built in Support Module
  - Contact our support team directly while logged into the RxNT system.
- 8am – 10pm Live Support
- After hour critical application support 24/7

The screenshot displays a web-based support interface titled "Support". It features two tabs: "Recent Issues" and "Add Issue". The "Add Issue" tab is active, showing a form with the following fields:

- Issue:** A label above the form area.
- Contact Name:** A text input field.
- Contact Phone/Email:** A text input field.
- Issue:** A large text area for describing the problem.

At the bottom of the form, there are two buttons: "Report!" and "Cancel".

### Compliance Reports

The compliance report is a listing of all prescriptions issued by the doctor. The reporting period will automatically be determined from the last report generated to the current report run time. We have used a default date for all practices' reports to begin of 7/1/04. Some states have specific requirements as to the frequency of when those reports must be run. Please check with your state for its specific requirements.

Generate Compliance Report

### Custom Reports

Search all prescriptions using the following criteria.  
(fill in at least one field)

**1. Date range:**  
☒ Today   
☐ Start Date:   End Date:

**2. Written for patient:**  
Last name:   
First name:   
Zip Code:

**3. Authorizing Prescriber:**   Prescribing Agent:    
Writing Agent:

**4. Containing the drug:**

**5. Containing the ID(s):**
